RAILROAD REFUSES TO OUST NEW MEN

Southern Officials Spurn Demand of Labor Heads for Dismissal.

WILL RESTORE STRIKERS
But Will Not Let Out the Men Who Took Place of the Shopmen.

WASHINGTON, Sept. 16.—Demand by union leaders that all men taken on during the strike be discharged immediately upon return of strikers to their jobs broke up a conference here to-day between Southern Railway officials and general shop craft chairmen, which was designed to bring about a settlement on the basis of the Warfield-Willard-Jewell agreement.

Representatives of the road refused to consider the demand and told the union leaders that signature of the agreement must precede discussion of details. The position of the road was said to be that of willingness to take back the men on strike with seniority rights unimpaired but unwilling to promise discharge of men taken on during the strike as a condition to return of the strikers to work. The road was further represented as holding that this demand was beyond the Warfield-Willard-Jewell agreement.

The union spokesmen said the Southern officials had "refused absolutely to discuss dismissal of the men taken on during the strike or any other issue until the 'Chicago agreement' could be signed."

CLEVELAND, Sept. 16 (Associated Press).—An agreement has been reached between general chairmen of the Brotherhood of Railroad Trainmen and the Order of Railway Conductors with officials of the Pennsylvania Railroad over wages and working conditions. W. L. Lee, president of the trainmen, announced to-day upon his return from New York.

TOLEDO, Sept. 16.—Agreement between the Baltimore and Ohio Railroad and its striking shopmen in Toledo has been reached and a large number of the 300 machinists, car repairmen, blacksmiths and other mechanics employed in the local shops will resume work Monday, it was announced at union headquarters here to-day.

BALTIMORE, Sept. 16.—Announcement was made to-day at the office of S. Davies Warfield, president of the Seaboard Air Line, that the agreement has been signed by the railroad and the men for the settlement of the strike, as adopted in Baltimore and approved by the policy committee of the railway employees department, American Federation of Labor.

Mr. Warfield stated that all shops will be opened in full Monday morning next, working two shifts of eight hours each. This, he said, will enable the railroad to rapidly catch up for time lost during the strike.

BIG WESTERN RAILS STAND BY NEW MEN

Refuse Union Demands That They Be Ousted.

SPECIAL DISPATCH TO THE NEW YORK HERALD.
CHICAGO, Sept. 16.—Railroads that have accepted the separate peace agreements as a basis for settlement of differences with the Federated shopcrafts, took a determined stand to-day against discharging employees who were hired to take the place of strikers.

Leaders of the shop crafts on the Chicago and Northwestern demanded that the road dismiss non-union men hired during the strike. Officials of the road refused and many of the strikers who returned to work this morning left their jobs.

The same demand was made of officials of the Chicago, Milwaukee & St. Paul road by 100 men employed in the Austin roundhouse. The men asked that a foreman be discharged and their old foreman reinstated. They walked out when the demand was refused.

The railroads took the position that the Jewell agreement expressly provided that employees put to work during the strike should not be disturbed. The agreement provides, in effect for an open shop.

STRIKE TIES UP HALF OF FRENCH SHIPPING

Seamen Stop Work for 23 Hours, Keeping Just Within Law's Limit.

OPPOSE LONG WORK DAY
Sailing of the Lafayette for New York Postponed Till To-morrow.

PARIS, Sept. 16 (Associated Press).—Half of French shipping is tied up to-day by the seamen's twenty-three hour strike of protest against the Government's extension of the working marine day beyond eight hours, according to detailed reports received from all the principal ports. The four large harbors of Marseilles, St. Nazaire, Havre and Dunkirk are strikebound.

Cherbourg, Brest, Nantes, Calais, Toulon and La Rochelle harbors remain unaffected by the strike order. At Bordeaux the workers were divided, half of them reporting for work and the other half striking. There seems to be no intention so far to extend the strike beyond the twenty-three hour limit, so as to avoid disciplinary measures on the part of the Government, which allows a minimum of but one day's absence from work.

The Government is prepared to call out the crews in the navy in case an emergency arises during the strike. Up until now there has been no cause for alarm and no use has been made of naval personnel. It is thought that if the tieup keeps within the twenty-three hour limit shipping will resume its normal state without much confusion.

It was announced by the French Line that the sailing of the steamship Lafayette from Havre for New York has been postponed on account of the strike. The Lafayette will probably leave Monday night, it was stated.

MARSEILLES, Sept. 16.—The strike of seamen, which commenced here at six o'clock this morning, forced the steamers Patria of the Fabre Line and the Amiral Neilly to dock without tugs.

The crews of the two steamships went ashore as soon as the strike order went into effect, leaving only enough men to insure the safety of the vessel. Even though undermanned, the vessels succeeded in gaining their places along the quays. The French steamers Eugene Perceire and Nere also arrived and were deserted by their crews.

MEXICAN R. R. WORKERS SEND \$500 TO SHOPMEN

Plan \$2.50 Assessment on 35,000 Employees.

SPECIAL DISPATCH TO THE NEW YORK HERALD.
ATLANTIC CITY, Sept. 16.—C. N. Idar, American Federation of Labor organizer in Mexico, sent Samuel Gompers a telegram to-day stating that the employees of the Mexican Federation of Railroad Employees have sent \$500 pesos (\$500) to the striking shopmen in El Paso.

A per capita assessment of \$2.50 will be made on 35,000 railroad employees to help the striking American shopworkers. About a month ago the Mexican Railroad men called a one day suspension of work out of sympathy for the American shopmen.

RIDES UNHURT 400 FEET ON ENGINE AFTER CRASH

Motorist's Daughter, However, Probably Will Lose Leg.

MATAWAN, N. J., Sept. 16.—Alexander Silvers, a traveling peddler, and his daughter, Bella, 9 years, were driving over the railroad tracks at the county road crossing at Clifford this afternoon when the light truck in which they were carrying their store of merchandise was struck by the Atlantic City and Lakewood Express.

Although the truck was knocked into many pieces, Silvers in some manner was caught on the cowcatcher of the engine and carried for 400 feet until the train came to a stop. He was unhurt. An iron pin on the coupler in front of the engine pierced the girl's right leg, however, and she probably will lose the limb. Silvers, who lives at 100 Stevens avenue, South Amboy, said he was driving slowly, and when he saw the train approaching he became so confused that he stopped in the middle of the tracks.

65
Years ago in New York

Down on 11th Street

In 1857—65 years ago in New York—there was a little store, just famous for its silks, gorgeous brocades and rich velvets. "They often tempted me to buy when I really didn't need to," an old patron told us.

Soon

This little store, now a great store, will celebrate the 65th Anniversary of its founding. We want you to celebrate with us.
